

BILL NO. S-92-10-40

SPECIAL ORDINANCE NO. S- Withdrawn

AN ORDINANCE approving the awarding of Reference #0382 by the City of Fort Wayne, Indiana, by and through its Department of Purchasing and EASTMAN KODAK COMPANY for the Fort Wayne Police Department.

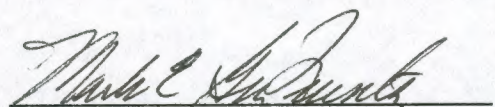

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA;

SECTION 1. That Reference #0382 between the City of Fort Wayne, by and through its Department of Purchasing and EASTMAN KODAK COMPANY for the Fort Wayne Police Department, respectfully for:

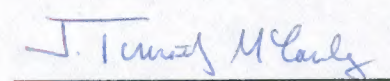

the purchase of Kodak 225F High Volume Copier for the Fort Wayne Police Department;

involving a total cost of Seventeen Thousand Three Hundred Sixty-Two and no/100 Dollars (\$17,362.00), all as more particularly set forth in said Reference #0382, which is on file in the Office of the Department of Purchasing, and is by reference incorporated herein, made a part hereof, and is hereby in all things ratified, confirmed and approved.

SECTION 2. That this Ordinance shall be in full force and effect from and after its passage and any and all necessary approval by the Mayor.

WHY BUY KODAK COPIER/DUPPLICATOR?

- **Benchmark Copy Quality**
- **Speed - Productivity**
- **Short - Straight Paperpath**
- **Very Easy to Use**
- **Will Run 110 lb. Cardstock**
- **Industry Rated #1 for Reliability**
- **7 Year Replacement Warranty**
- **Top Rated Service**

*******MADE IN USA*******

KODAK EKTAPRINT 225 COPIER- DUPLICATOR

KODAK EKTAPRINT 225 Copier-Duplicator

PRODUCTIVITY

Feature

Customer Advantages

Speed - 70 Copies/Minute

Consistent production regardless of job stream

Recirculating Feeder

Unlimited collating

On-Line Finishing Operations

Automatic stapling, stacking even or offset without operator involvement

Continuous Run

Long runs without delays

Finisher Capacity

2,000 sheets until unloading required, input equal to output

Two-Sided Copying

No operator involvement for one-sided originals or two-sided originals

Pre-Programmed Job Selection

Nine different jobs can be pre-programmed in the copier, eliminating errors and saving time

VERSATILITY

Feature

Customer Advantages

Inserts/Chapterization

Minimal set-up required for complicated jobs

Zoom Reduction

Precise reduction capabilities

Up to 110-pound Throughput

Wide range of copy stock

Edge Erase

Allows operator to eliminate 3-hole punch shadows

Image Shift

Accurate and effective image placement on either the front or back of a copy

Copy Controller

Monitor copier usage and/or charge back to specific departments

KODAK EKTAPRINT 225 Copier-Duplicator

UPTIME

Feature

Proven Duplicator Mainframe

Short, Straight Paper Path

Copier Self-Check

Time & Date

Customer Advantages

Industry rated #1 in reliability

Reduces potential for paper jams, and is extremely easy to clear

Internal diagnosis of problem areas, will inform operator to call service and give a specific code

Precise diagnosis of time and date of equipment malfunction

EASE OF OPERATION

Feature

Central Control Panel

- Easy Feature Selection
- Clear, Concise Operator Instructions

Programmable Job Selection

Manual & Automatic Feed

Key Operator Maintenance

Customer Advantages

Easy for anyone to use—minimal training

Covers, image shift, edge erase, zoom reduction, stapling, etc., all on one control panel

Complete English messages inform the operator of all machine functions and operations

Easy set-up of complicated jobs

Allows operator to copy almost any original, even an oversized book

Paper and toner addition is simple

COPY QUALITY

Feature

Three Main Quality Settings

Copy Improvement Control

Film Belt Technology

Customer Advantages

Consistent copy quality reproduction from a variety of originals

Allows ten different settings for normal, darken and lighten copy—total of 30 settings

Proven superior technology with 100+ years of optical experience

KODAK EKTAPRINT 225 Copier-Duplicator

<u>Feature</u>	<u>Benefits</u>
Organic Film Belt	A Kodak First. The film belt provides excellent quality copies from a wide variety of originals.
36" Paper Path	Increases overall reliability and productivity. Compare this to other high-volume copiers whose paper path can equal 18 feet. In addition, the short paper path has only six waist-high jam clearing stations, compared to the competition's 12.
2,000 Sheet Paper Supply	Easy front access increases productivity by allowing users to "load paper on the run." This eliminates the need to stop the machine to add additional paper. In addition, our paper capacity is 25% larger than the competition.
Automatic Cover Insertion	Add a touch of professionalism by adding a cover to the front, back, or both sides of your document — all at the touch of a button.
Variable Zoom Reduction	At the touch of a button reduce automatically from 100% to 64% in .5% increments. Combined with true 1-1 copying, this allows accurate and detailed reduction capabilities.
Automatic Slip-Sheeting	Increase productivity and job quality by automatically inserting blank or printed slip-sheets at the touch of a button.
Automatic Chapterization	Create professional-looking documents by starting new chapters or subject headings on a right-hand page. The powerful micro-computers remember where each new chapter begins. You no longer need to waste valuable time by manually placing blank sheets in your document to simulate new chapters.

KODAK EKTAPRINT 225 Copier-Duplicator

Feature

Benefits

Image Erase

Produce excellent quality documents even from poor quality originals. Image Erase allows unlimited edge trim in .10 inch increments. This eliminates 3-hole punch shadows and notes or marks in the margins.

Full Feature Job Interrupt

Two Machines In One. Job Interrupt eliminates the need for a back-up machine for rush jobs. The advanced micro-computer logic allows you to interrupt a job—no matter how complex—and run as many priority jobs as necessary using full machine features. Compare this to other high-volume copiers that restrict job interrupt to single page copies off the platen glass.

In-Line Finishing

Job, staple, and offset stack up to 75 sets of documents. To increase versatility on stapling jobs, choose one of six stapling positions. Yield per spool of 50,000 stitches reduces time spent loading staples. Use the removable finisher tray to safely transport documents for efficient distribution.

Copy Controller

Keep costs under control. A built-in Copy Controller gives you a system for identifying up to 600 users or 175 departments.

Kodak Service and Reliability

The KODAK EKTAPRINT 225 Copier-Duplicator is based on the original technology that revolutionized copier reliability and serviceability. Kodak's short, straight paper path has been a welcome solution to bothersome jamming problems.

Computerized self-diagnostics and service diagnostics help maintain uptime by speeding service. Service people can recall the unit's complete service history and even simulate jobstreams without using paper or toner to get your Copier-Duplicator on-line fast.

KODAK EKTAPRINT 225 Copier-Duplicator

Speed:

First Copy Time	8 Seconds
Multi-Copy Speed	70 Copies/Minute

Input: Recirculating Document Feeder

Feeder Capacity	70 Originals
Original Sizes	8 x 10 to 8-1/2 x 14
Original Weights	16 to 32 lbs.
Copy Print Quantity	1 to 999

Throughput:

Paper Supply	2,000 Sheets
Copy Sizes	8 x 10 to 8-1/2 x 14
Paper Weights	16 to 110 lbs.

Output: Stapler

Capacity	500 Sheets
Number of Sheets Stapled	Maximum 25
Mode	Straight or Offset Stapled or Non-Stapled

Output: Finisher

Capacity	2,000 Sheets
Number of Sheets Stapled	Maximum 50
Mode	Straight or Offset Stapled or Non-Stapled 6 Different Positions

Standard Features:

*	Auto Duplexing
*	Reduction: 64% to 100% in .5% Increments
*	Standard 98%, 77%, 65%
*	Job Interrupt
*	9 Pre-Programmed Selections
*	Edge Erase
*	Image Shift
*	Continuous Run
*	Inserts
*	Chapterization

KODAK EKTAPRINT 225F Copier-Duplicator

The KODAK EKTAPRINT 225F operates at 4,200 copies per hour. All features are accessible at the centralized control panel. Clear English messages on the panel guide users through every copy process and job. Operators can choose one-sided or automatic two-sided copying. You have the ability to place covers or page inserts anywhere in your set to add a professional touch to your reports. With two-sided copies, your page inserts can be automatically chapterized. Simple zoom reduction offers four preset reduction modes or continuous reductions in 0.5% increments from 64% to 100%. Additional capabilities such as preprogram job selection for up to nine different jobs, continuous run, or the ability to interrupt a job for priority work further increase your productivity. An optional integral copy controller can be activated, allowing you to track up to 600 users. These capabilities, along with our proven, reliable mainframe, make the KODAK EKTAPRINT 225F a truly productive and simple unit to operate.

*Your machine would
not have the
Finisher/Stapler*

Features

- Zoom reduction capability: 64% - 100%.
- Preprogrammable job selection
- Built-in Copy Controller with optional printer
- Operating speed: 4,200 copies per hour
- Control panel directs microcomputer system. Accepts all operator instructions, displays job progress and all assistance codes.
- Dual paper supplies—Continuous Run
- Choice of paper exits
- Book copying
- Easy access to the paper path
- Recirculating feeder feeds, copies and collates documents
- Automatic cover and page insertion
- Automatic chapterization
- Job interruption
- Automatic duplex

Copy Specifications

- **Original Size:** 8 x 10" to 8.5 x 14" for automatic feed, up to 11 x 17" in manual mode
- **Copy Paper:** 8 x 10" through 8.5 x 14"; 16-lb. bond to 100-lb. index; commercially available xerographic and duplicator bond
- **Paper Supply:** Two independent supplies, each holds 1,000 sheets of 20-lb. bond. A different type of weight can be used in each drawer.
- **Maximum number requested copies:** 9,999
- **Copy Size:** Zoom to 64% in 0.5% increments of the original; or fixed at 100%, 98%, 77%, 64%
- **Microprocessor Control**

Electrical Requirements

Power: 240/120 or 208/120 V \pm 10%, 30 A max., 60 Hz single phase, 3-wire and ground-dedicated—Individual Branch Circuit. (Per National Electrical Code, Article 100.) Standard 120 V ac (\pm 10%) outlet for the printer.

Receptacle NEMA 14-30R or equivalent. See page VII-9 for receptacle configuration. Current safety codes and regulations specify that the receptacle or a power cutoff switch (or circuit breaker) must be readily accessible to the user without moving the copier.

Where local codes require the use of a GFCI (Ground Fault Circuit Interrupt), the square "D" GFCI is recommended. This was the only unique load. The square "D" GFCI Catalog numbers for the EKTAPRINT 225F Copier-Duplicator are:

- 20 AMP (single pole) Standard Prod.
- 30 AMP (two pole) No. GFI-15382

IBM Series III Copier/Duplicator Model 70

IBM Series III Model 70—Modular to meet your needs

Model 70 is a high-quality, multifunction copier that offers you increased productivity, ease of operation and outstanding performance. A significant advantage of the copier is its modularity which allows features to be added to the machine—in your office—as you need them. It provides the following standard features to help assure high-quality copying: Semi-Automatic Document Feed, Duplexing, Interrupt Feature, Job Separate, Automatic Job Recovery, Operator Assist Panel and Machine Diagnostics.

Optional features are also available that enhance the machine's versatility and productivity: Automatic Document Feed, Reduction with a new "2-Up" Feature, Collation (20- or 40-bin), a Copier Control Feature and Continuous Forms Feeder.

Model 70 offers you three input modes. Besides its manual document feed capability, it features two enhancements that reduce paper handling and help increase productivity: Semi-Automatic Document Feed and Automatic Document Feed.

Semi-Automatic Document Feed

This standard feature accepts single documents from 3 x 5" up to 11 x 17". It also accommodates the new "2-Up" feature which allows two 8½ x 11" sheets to be copied at the same time onto a single 8½ x 11" sheet.

Automatic Document Feed

An innovative feature that permits a stack of up to 50 originals to be automatically moved to the document glass for copying. The Automatic Document Feed aids productivity since manual alignment of documents may not be necessary.

Versatile, Easy Reduction

Just select the reduction mode you want for the original and press a button. You have a choice of reduction formats. Either a 26% or 35% reduction of the original. You can reduce oversized documents like computer printouts, engineering drawings or legal-size sheets to an 8½ x 11" size for easy handling and filing.

Convenient "2-Up" Feature

The new "2-Up" reduction feature allows two 8½ x 11" sheets to be simultaneously transported by the Semi-Automatic Document Feed and copied in the maximum reduction mode, onto a single 8½ x 11" sheet. This can result in savings on paper (two originals can be copied for the price of one), filing space and mailing costs.

Fast, Automatic Collation

Just press a button and your documents can be collated quickly. You can combine automatic collation with other features on the Model 70, so you can reduce and collate for example, or duplex, reduce and collate all at once. You can choose either one or two 20-bin collator modules for up to a 40-bin capacity. Each bin can handle up to 100 sheets of 20-pound paper. These are microprocessor-controlled bidirectional collators that collate from top to bottom, and bottom to top.

Automatic Job Separate Feature

This eliminates the time spent in manually separating copy jobs or sets. Just press a button and the copier will separate copy sets in the Exit Tray by automatically inserting a sheet of paper from the Alternate Paper Drawer. The Separate Feature works with the collators, too. It can expand the capacity of the collators beyond "the number of bins by inserting a separate sheet" within each bin of the collators.

Push-Button, Automatic Duplexing

Automatic Duplexing (copying on both sides) saves paper and cost and is especially helpful when doing reports, proposals and other lengthy documents. Document handling is simplified since you will be using, filing and mailing less paper. A special Duplex Copy Tray holds copies until they are ready for copying onto the second side. This eliminates any set-up or intervention on the part of the operator. With the Alternate Paper Drawer, you can go from letter-size to legal-size duplexing, or back again, by simply pressing a button.

Convenient Interrupt Feature

This feature allows the copier to be interrupted during a multi-page run so that you or someone else can make priority copies. After priority copies are made, the first job can be completed without causing the original user the inconvenience of counting the copies and resetting the machine. This feature helps to assure that collated sets are complete.

Remarkable Copy Quality

Model 70 offers you crisp, clean, clear copies from a wide range of originals: halftones, solids, line copy and hard-to-copy originals. You can also copy onto a variety of different materials, and make darker or lighter copies by pressing a button. And, because of its low-glare illuminating system, books and other thick originals can be copied with the document cover in the open position. Technological advancements in IBM High Density Cartridge Toner give you extraordinarily bright copies of remarkable quality.

Operator Assist Panel

The Operator Assist Panel instantly identifies situations which may arise and quickly tells you what to do: add paper, check paper path, lift cover and remove document, remove copies, etc.

Copier Control Feature

This feature allows use of the copier by authorized personnel only. Authorized users are assigned a digital code, and the copier can be operated only when a valid code is entered. This feature also provides an accurate copy count by the assigned code.

Machine Diagnostics

Should a problem arise in the operation of the machine, Machine Diagnostics will let you know it immediately. Because of the logic built into the IBM Microprocessor, significant data pertaining to the performance of the copier is collected and stored. This data can assist a service representative in quickly making machine adjustments and in anticipating service requirements.

Automatic Job Recovery

This feature has a special advantage when duplexing and/or collating. If a misfeed should occur, a lighted message will appear on the panel telling you to check the paper path. Once the paper path has been cleared, a second lighted message will tell you exactly which original needs to be recopied. This helps to assure that there are no skipped pages.

Ease of Operation

Model 70 is easy to operate. Select the quantity you want, press the start button, and the copying cycle begins.

Specifications (Model 70):

Operates on 120/208 Volt or 120/240 Volt 60 Hertz, AC grounded 30 Amp lines or a 120 Volt 60 Hertz AC grounded 30 Amp dedicated line.
Receptacle: NEMA standard type 14-30R.
Dimensions: 47¼" (1200 mm) high x 49" (1245 mm) Wide x 29½" (749 mm) deep
Approximate Net Weight: 1200 lbs. (544 kg)
Color: Pearl White with Charcoal Gray End Panels.
Paper Sizes: 8½ x 11" (216 x 279 mm), 13" (330 mm) or 14" (356 mm).
Paper Weights: 16-24 lbs. (60-90 g/m²) single sheet-fed paper.
Paper Supply: Approximately 2700 (2100 primary, 600 secondary).
Delivery Speed: 4.5 seconds for first copy; subsequent copies every .8 seconds. (normal delivery time will be affected when certain features are used).
Copies Per Minute: 70 (rated speed).
Copies Per Hour: 4200 (rated speed).
Semi-Automatic Document Feed: Single sheet originals are automatically fed onto the document glass, positioned, and after the last copy is made, originals are ejected into the Original Exit Tray.
SADF Document Sizes: 3 x 5" (76 x 127 mm) to 11 x 17" (279 x 432 mm) Two 8½ x 11" (216 x 279 mm) documents for the "2-Up" feature.
ADF Capacity: Up to 50 documents from 8 x 10" (203 x 254 mm) to 11 x 16½" (279 x 419 mm)
Exit Pocket Capacity: 250
Collator: Two modules are available: Primary Module (20 bins) and Secondary Module (additional 20 bins).
Warm-Up Time: Approximately 10 minutes.
Maximum Image Area: 8½ x 14" (216 x 356 mm)
12 x 17" (305 x 432 mm) with reduction and manual document placement.

Memorandum

TO: Natka Eshcoff, City Clerks Office
FROM: Jennifer Mosley, City Purchasing
DATE: November 17, 1992
SUBJECT: Ref. No. 0382 / High Volume Copier

=====

Please be advised that the above reference no. 0382 needs to be pulled from the Council agenda scheduled for passage on Tuesday, November 17, 1992 per Purchasing Director, Stephen D. Millspaugh.

If there are any questions please call 427-1101. Thank you.

Stephen D. Millspaugh
Director of Purchasing

To Be Withdrawn

DIGEST SHEET

TITLE OF ORDINANCE: Special

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the purchase of Kodak 225F High Volume Copier for the F W Police Department. The cost reflects the most responsive vendor and should be awarded to Eastman Kodak in the amount of \$17,362.00.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED: Low bid vendors did not meet required specifications.

EFFECT OF PASSAGE: This copier will be used in the Records Bureau for the copying of accident reports, various forms, court documents, and miscellaneous items at citizens request.

IF REPLACEMENT, WHAT NECESSITATES: This replaces present copier purchased in 1985.

EFFECT OF NON-PASSAGE: The Records Bureau would not be able to provide efficient service to the public. The prior service record with this vendor has been outstanding.

PRIOR APPROVAL REQUESTED: NO DATE:

MONIES INVOLVED: Eastman Kodak \$17,362.00

PRICE AGREEMENT: NO
